THREE BOYS HELD.

TO VERY BOTTOM

for Cotton Leak Case.

General Hoyt-Grand Jury May Soon Act.

Since receiving from Secretary Wilson, of the Department of Agriculture all the papers in the cotton leak case, which were brought to him yesterday,

NEW YORK, July 12.—The stock market opened more cheerfully. In Steel common 5,300 shares ranged from ½ to ½ higher. Atchison gained ½ Erie, Reading and Smelters rose ½. Erie, Reading and Smelters rose ½. Brooklyn Rapid Transit ¾, and Northern Pacific 1 per cent. There was no feature among the specialties, Bonds were quiet.

The first effect of the publication of the splendid crop report was a cancellation of selling orders and a decrease in the supply of stocks all around the room, London bought 20,000 shares in the supply of stocks all around the first hour, and many of yesterday's large sellers turned to the buying side. The buying was not aggressive, though, and no effort was made on the part of those handling the huving orders and first four of those handling the huving orders and first four of those handling the huving orders and the first lour, and many of the part of those handling the huving orders and the first lour of stocks and made on the part of those handling the huving orders and the first lour of stocks handling the huving orders and the first lour, and many of the part of those handling the huving orders and the first lour and the part of those handling the huving orders and the part of those handling the huving orders and the first lour and many of the first lour and the part of those handling the huving orders and the first lour and the part of those handling the huving orders and the first lour and the part of those handling the huving orders and the first lour and the part of those handling the huving orders and the first lour and the part of those handling the huving orders and the first lour and the part of those handling the huving orders and the first lour and the part of those handling the huving orders and the first lour and the part of those handling the huving orders and the first lour and the first lour and the part of the part of the first lour and the first lour and the part of the part of the part of the first lour and the first lour and the first lour and the first lour and the manner in which he conducted thoca cases insures a vigorous randling of the cotton leak affair.

Every scrap of information in his pos ession the Secretary of Agriculture turned over to Mr. Hoyt. Mr. Wilson was disposed, at first, to rest with the Government bonds unchanged; railroad and other bonds firm.

Little or no business was done in London during the second hour, and London during the second hour, and London purchases for the day are about 20.000 shares. Very little Union Pacific was bought for foreign account. The whole market has moved more narrowly than usual this morning. For the half hour before noon prices were irregular, but tending again to sag. The room traders are doing a much larger proportion of the transactions than yesterday.

WASHINGTON CTOOL

was disposed, at first, to rest with the dismissal of Helmes and to take no steps locking to criminal prosecution. He thought it would be better for the public service to clean out and reorganize the Burcau of Statistics and let go at that. The President, however, was of a different mind and directed that if there were wrongdoers in the Government service whom the criminal laws could reach, the Department of Justice should proceed at once against they were seeking to tire the longs and force some unloading.

NEW YORK CORREST

them.

It was ascertained at the Department of Justice today that there will be no untoward rush on the part of Mr. Beach. It is a cold legal proposition that Mr. Hoyt has to do with and he will go about it deliberately. Mr. Beach will have charge of the proceedings which will consist of another and more thorough investigation of the facts w thorough investigation of the facts the case, but he will be in constant consultation with Mr. Hoyt, who will have supervisory control.

CATCH ROBBERS

The safe was found intact, the key to the money drawer lying in its accustomed place in the cashier's desk. There were three grease spots, evidently made by tallow dropping from a lighted candle, on the floor. Other than this the sleuths had nothing to work on. It was deemed almost impossible for any outside party to have opened the safe and get possession of the key, but the detectives thought it probable that an employe had tapped the till, and they began watching Harris, who worked around the establishment as a porter. Suspicion also fell on Clark, the elevator operator.

Wanted to Go Home.

Last night, before leaving the store. Harris announced that he intended re-turning to his home in the Tar Heel State. He said he was ill on accounof the heat and did not think the clim ate agreed with him. The detective learned of his intentions and watched put under arrest.

He was closely questioned by Major

Temperature changes will be unimportant today. The thermometer will continue to hover about \$7 or \$8, and Washington, unfortunately, will have to submit to these consitions for a few days longer.

Officials at the Weather Bureau are manifestly anxious that some relief should come this way. They express their indignation at the weather for playing such tricks on suffering humanity, to say nothing of the way it makes the bureau look like an information booth at a country fair. The Safest Investments Are those that do not depend upon the financial responsibility or the stability of any individual or corporation. First deeds of trust (mortgages) notes liberally deeds of trust (mortgages) notes liberally secured on good real estate in the District of Columbia constitute "gilt-edged" investments. These are the only kind we make and supply to investors. They bear interest, payable semi-annually, at the rate of Five per cent per annum, and may be had of us in amounts from \$500 and upward at par and accrued interest.
